Protest

In Prague, 13th April, 2019

Your Excellency,

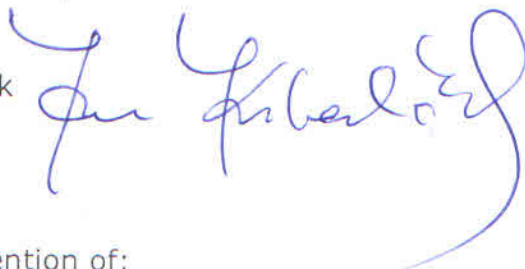

We were shocked after hearing that Sir Roger Scruton had been falsely accused and defamed after The New Statesman published a distorted interview with him. To our surprise, the British Government took it seriously and relieved Sir Roger of his duties as an advisor in the commission „Building Better Building Beautiful“.

On behalf of the Czechs ever so grateful for Sir Roger's personal involvement in the struggle for freedom, we have to protest against false accusations and unjust treatment of possibly one the greatest English thinker and a man of impeccable integrity.

On behalf of Konzervativní strana,

Faithfully yours,

Jan Kubalčík
chairman
